

**Press Release**

Pursuant to CONSOB Resolution 11971/99 as subsequently amended and supplemented

**Il Sole 24 ORE S.p.A.: BoD approves Interim Management Statement at 31 March 2020**

**First quarter 2020 results are affected by the Covid-19 health emergency**

**Consolidated highlights of the 24 ORE Group:**

- **Negative EBITDA of € 1.6 million (positive € 2.4 million at 31 March 2019)**
- **Negative EBIT of € 5.6 million (€-1.7 million at 31 March 2019)**
- **Loss of € 5.9 million (€ -1.7 million at 31 March 2019)**

**Net financial position of € -31.1 million versus € -26.3 million at 31 December 2019, worsening by € 4.8 million**

**Consolidated equity of € 31.4 million, € 5.2 million lower than € 36.6 million recorded at 31 December 2019**

*Milan, 14 May 2020* - Today, the meeting of the Board of Directors of Il Sole 24 ORE S.p.A., chaired by Edoardo Garrone, approved Interim Management Statement at 31 March 2020 of the 24 ORE Group.

## Financial highlights of the 24 ORE Group

The 24 ORE Group closed first quarter 2020 with a net loss of € 5.9 million and with equity of € 31.4 million, decreasing by € 5.2 million versus consolidated equity of € 36.6 million at 31 December 2019.

The key financial figures of the Group at 31 March 2020, drawn from the condensed consolidated interim financial statements are as follows:

<b>MAIN CONSOLIDATED FIGURES OF THE 24 ORE GROUP</b>		
Amounts in € millions	1Q 2020	1Q 2019
Revenue	43.3	50.2
Gross operating profit (EBITDA)	(1.6)	2.4
Operating profit (loss) (EBIT)	(5.6)	(1.7)
Pre-tax profit (loss)	(6.0)	(1.7)
Profit (loss) of the period	(5.9)	(1.7)
	31.03.2020	31.12.2019
Non-current assets	132.4	129.5
Current assets	87.0	84.1
<b>Total assets</b>	<b>219.4</b>	<b>213.6</b>
Equity attributable to owners of the parent	31.4	36.6
Equity attributable to non-controlling interests	-	-
<b>Total equity</b>	<b>31.4</b>	<b>36.6</b>
Non-current liabilities	51.3	49.3
Current liabilities	136.8	127.7
<b>Total liabilities</b>	<b>188.0</b>	<b>177.0</b>
<b>Total equity and liabilities</b>	<b>219.4</b>	<b>213.6</b>

## Market environment

The market is affected by the Covid-19 health emergency and the extraordinary measures adopted by the authorities involved to contain the virus. Against this backdrop, publishers are weighing the possibility of rescheduling their planned initiatives; many have, in fact, reviewed their publishing plans for 2020 and reduced the number of new releases. Radio, too, is bearing the brunt of the current emergency.

The spread of the pandemic has led to the suspension of physical events and slowed down the development of special initiatives specifically created for customers. ADS figures of the main national newspapers for January-March 2020 show a drop in total circulation of print+digital copies of -8.0% versus the same period of 2019, with a drop in circulation of the print version of -10.4% and a rise in digital circulation of +1.1% (*ADS January-March 2020*). The latest radio audience figures for 2019 indicate a total of 34,849,000 listeners on average day, steady versus 2018 (+0.4% *RadioTER 2018-2019*).

The relevant advertising market closed the first two months of the year on an upward trajectory (+1.2% - net of local newspaper advertising), boosted by radio (+13.9%) and the Internet (+4.8%) which, together, managed to offset the fall of print media (-9.5%); newspapers closed at -7.3% (net of local) and magazines at -12.2% (*Nielsen - January-February 2020*). The current health emergency will probably lead to a reversal of the trend in the coming months; companies are holding back their advertising investments with a view to reorganizing their activities and medium/long-term communication strategies.

In 2020, the professional publishing segment was expected to level off its overall turnover (at around +0.4%), affected by the low spending power of professionals and the spending review actions undertaken by Public Administration.

Forecasts for the various segments pointed to an above-average growth for tax publishing (+3.2%), and to a reduction for the legal area (-1.3%), affected by the downward trend in lawyers' incomes. In terms of media, 2020 seemed not to show any change in the current trends: on the whole, electronic publishing (+3.2%) and management software (+4.2%) were assumed to continue their growth, with the increasing integration of digital editorial content within management software.

As far as traditional "print" content is concerned, the sales of books and, most of all, of magazines were expected to rapidly retrench, with a shift towards digital content (*"Rapporto Databank Editoria Professionale"* – *Cerved S.p.A, December 2019*).

Forecasts for 2020, however, must now take account of the impacts of the Covid-19 emergency, which has severely affected professionals and companies and, as a result, most likely the professional publishing market too.

## Consolidated results at 31 March 2020

### Financial highlights of the 24 ORE Group net of non-recurring expense and income

The key financial figures (net of non-recurring expense and income) of the Group at 31 March 2020 are shown below:

MAIN CONSOLIDATED FIGURES OF THE 24 ORE GROUP NET OF NON RECURRING CHARGES		
Amounts in € millions	1Q 2020	1Q 2019
Revenue	43.3	50.2
EBITDA net of non recurring income	(1.6)	2.4
EBIT net of non recurring income	(5.6)	(1.7)
Pre-tax profit (loss) net of non recurring income	(6.1)	(1.7)
Net profit (loss) net of non recurring income	(6.0)	(1.7)
	31.03.2020	31.12.2019
Equity	31.4	36.6
Net financial position	(31.1)	(26.3)

### Revenue trend

In first quarter 2020, the 24 ORE Group achieved **consolidated revenue** of € 43.3 million versus € 50.2 million in first quarter 2019 (€ -6.9 million, down by -13.7%). The downturn in revenue was strongly impacted by the effects of the ongoing Covid-19 health emergency and the resulting restrictive measures adopted by government authorities, which compound the weakness tied to the structural decline of the relevant market. Specifically: advertising revenue was down by € 2.0 million (-10.7% from € 18.5 million to € 16.5 million), publishing revenue by € 1.7 million (-6.4% from € 26.1 million to € 24.4 million) and other revenue by € 3.2 million (-57.4% from € 5.6 million to € 2.4 million). The Group's advertising revenue in March alone fell by 23.7%, while revenue from the Culture Area following closure of the MUDEC - Museo delle Culture in Milan sank by 92.0%.

The Covid-19 emergency, which has spread across Italy since the end of February 2020 and is still in progress, is also having significant repercussions both on copies distributed and declared by the publisher to ADS and on copies sold. Specifically, print newspaper sales have seen an increase on the newsstand channel versus the period before Covid-19, offset by the negative trend of sales made on an ongoing basis to business sectors in temporary lockdown (such as trains and planes), of block sales specifically for events, as well as the temporary suspension of print subscriptions for businesses, banks, and professional practices. On the other hand, for the digital version of the newspaper, Covid-19 represents an opportunity to expand the market: the high number of new subscriptions has already led to an increase in circulation in March versus the prior month.

In first quarter 2020, the portal [www.ilssole24ore.com](http://www.ilssole24ore.com) posted a daily average of over 2 million unique browsers, up by 112% versus the 2019 average (*Webtrekk*). The performance is linked to the real-time coverage of issues related to the Covid-19 emergency, which was rather significant in March (an average of 3.77 million daily unique browsers, +281% versus the same period of the prior year), with daily records achieved on 12 March 2020 for unique

browsers (5.5 million) and on 22 March 2020 for page views (17.4 million), and peak indicators both for videos (average daily stream views +163.8% versus first quarter 2019) and social channels; the Facebook and Instagram fanbase in March grew more than the monthly average of the previous three months, in particular Instagram +10% (versus the monthly average of the previous three months +3.6%) and Facebook +3.6% (versus the monthly average of the previous three months +0.7%), thanks also to the subscription figures of the digital products *24+* and *Mercati+*.

Main trends in consolidated revenue:

- circulation revenue from the Daily (print+digital) amounted to € 11.5 million, down by € 0.9 million (-7.0%) versus first quarter 2019. Circulation revenue from the print Daily amounted to € 7.4 million, down by € 0.9 million (-10.9%) versus the same period of 2019. Circulation revenue from the digital Daily amounted to € 4.1 million (+1.1%) versus first quarter 2019;
- Group advertising revenue amounted to € 16.5 million, down by € 2.0 million (-10.7%) versus first quarter 2019. The decrease recorded in the first quarter is attributable to the spread of the Covid-19 pandemic, which impacted negatively on the sales performance in March. The spread of the pandemic has led to the suspension of physical events, countered by *Il Sole* with the development of digital initiatives. Special initiatives created specifically for customers and capable of offsetting the persisting crisis of print media, which account for 46% of the agency's total sales, have also been held up;
- e-publishing revenue amounted to € 8.6 million, down by 0.8% versus the same period of 2019. The results of the first quarter were affected by the performance of March 2020, which bore the full impact of the negative effects of Covid-19. Specifically, closure of the distributors made it impossible to deliver and account for the print volumes intended for bookstores. Additionally, many professional practices were shuttered, with negative impacts on databases and software;
- revenue from the Culture Area amounted to € 1.0 million, down by € 4.1 million (-79.9%) versus the same period of the prior year. Mention should be made that, in accordance with the order of 23 February 2020 of the Ministry of Health and the President of the Lombardy Region, and the ensuing legal measures, the MUDEC - Museo delle Culture in Milan has been closed until further notice, with the resulting postponement of a number of exhibitions.

The circulation (print+digital) of *Il Sole 24 Ore* for the period January-March 2020 totaled 142,407 average daily copies (-10.6% versus the same period of 2019). Specifically, the average daily print circulation declared to ADS for the period January-March 2020 was 66,956 copies (-15.9% versus 2019). Digital circulation declared to ADS was 75,451 average daily copies (-5.3% versus 2019). A point worth mentioning in March was the 6.3% increase in newsstand sales of the Daily versus the prior month (*ADS March 2020*). The figure refers to the Publisher's declaration to ADS, considering that the new additional Regulations on performing the ADS assessment of digital copies, in force from the declaration of May 2017, envisage the possibility, under the adoption criteria, of declaring multiple copies and promotional digital copies.

As shown in the Interim Management Statement at 30 September 2018, the Group asked an independent third party to render an opinion on the effective application of the appropriate procedures adopted in the calculation of the *Total Paid For Circulation* ("TPFC", i.e. total number of *Il Sole 24 ORE* daily fee-based sales on all markets through print and digital

channels) at 31 March 2020; following the audit, the independent third party issued an unqualified Report of Assurance (ISAE 3000 - Limited assurance) on 30 April 2020.

Based on these procedures, the average *Total Paid For Circulation* for the period January-March 2020 was 159,908 thousand copies (-8.6% versus the same period of 2019), including all multiple digital copies sold, but not declarable as circulated for ADS purposes, therefore not included in the relating declaration.

## Margins trend

**EBITDA** in first quarter 2020 came to a negative € 1.6 million versus a positive € 2.4 million in the same period of 2019. EBITDA for the period benefited from non-recurring income of € 0.1 million from the partial release of the provision for pension risks. At 31 March 2020, the provision was restated on the basis of the potential remaining critical issues from the application and management of shock absorbers.

The change is due mainly to the decrease in revenue of € 6.9 million (-13.7%), partly offset by the reduction in costs; in particular, direct and operating costs fell by € 3.2 million (-11.7% - from € 27.1 million to € 23.9 million).

**Personnel expense**, amounting to € 21.2 million, fell by € 0.3 million (-1.2%) versus € 21.5 million in first quarter 2019. The average headcount, amounting to 898 units, decreased by 34 units versus 932 units in the same period of the prior year. The lower cost is due mainly to the reduction in average headcount versus 31 March 2019, and the greater use of holidays, partly absorbed by the lower use of shock absorbers in the first three months of 2020.

**Service costs**, which totaled € 20.6 million, were down by € 1.7 million (-7.7%) versus first quarter 2019, due mainly to lower costs for conventions and exhibitions (€ -0.6 million), lower distribution costs (€ -0.5 million), lower printing costs (€ -0.3 million) and lower commissions and other selling expenses (€ -0.2 million).

**EBIT** in first quarter 2020 came to € -5.6 million versus € -1.7 million in first quarter 2019. Amortization and depreciation amounted to € 4.0 million versus € 4.1 million in the same period of 2019.

The **loss before tax** was € -6.0 million versus € -1.7 million in first quarter 2019. The result was affected by net financial expense and income of € -0.5 million (€ -0.6 million in first quarter 2019). In first quarter 2020, a capital gain of € 0.1 million was recorded from the disposal of the minority interest in Editoriale Ecoprensa S.A..

The **loss attributable to the owners of the parent** came to € -5.9 million versus € -1.7 million in first quarter 2019. The loss attributable to the owners of the parent, net of non-recurring expense and income, came to € -6.0 million versus € -1.7 million in first quarter 2019.

## Statement of Financial Position

The **net financial position** stands at € -31.1 million at 31 March 2020 versus € -26.3 million at 31 December 2019, worsening by € 4.8 million. The change is attributable mainly to the debt from the present value of the payments for the new lease of € 5.1 million for the Rome offices.

**Equity** amounted to € 31.4 million, € 5.2 million lower than € 36.6 million recorded at 31 December 2019, due to the loss for the period of € -5.9 million, and the actuarial assessment of post-employment benefits, which had a positive impact of € 0.7 million.

### **Business outlook**

The opening months of 2020 confirm the lingering weak market conditions and general uncertainty of the Italian economy, which affect the performance of advertising sales in particular. The current Covid-19 health emergency and the extraordinary containment measures adopted by the authorities involved are a bellwether of a possible deterioration of the general conditions of the global economy, the extent and duration of which are currently hard to predict. In first quarter 2020, ISTAT preliminary estimates show that GDP fell by 4.8% on a trend basis (*ISTAT - flash - I quarter 2020 - preliminary GDP estimate - 30 April 2020*).

Given the current health emergency, publishing and the advertising market in particular are marked by a general uncertainty over the effects of the spread of the pandemic.

Additionally, in accordance with the order of 23 February 2020 of the Ministry of Health and the President of the Lombardy Region, and the ensuing legal measures, a number of 24 ORE Group events have been cancelled and others will be rescheduled during 2020. Following the same order, the MUDEC - Museo delle Culture di Milano, managed by the subsidiary 24 ORE Cultura S.r.l., has been closed until further notice, with the resulting postponement of a number of exhibitions.

Given the current uncertainty over the duration and intensity of the Covid-19 health and socio-economic emergency, and over the timing of a possible return to normalcy, the Company believes that it is not possible, as things stand, to estimate the impact of the epidemic in 2020 and the following years, reserving the right to provide updates as soon as visibility conditions allow more accurate estimates of the impact of the Covid-19 emergency.

Amounts due by the 24 ORE Group and the parent company Il Sole 24 ORE S.p.A. refer to trade payables.

Regarding past dues over 210 days, it should be noted that the amount includes suppliers blocked for items in dispute for a total of € 336 thousand on the Parent Company. The Parent Company received two payment orders for € 347 thousand on the disputed amounts, filing its objection.

Regarding action by creditors, mention should be made that the reminders received fall into the ordinary administrative activities. At the date of this press release, there is no evidence of further payment orders served referring to the above amounts due; no suspended delivery has been made such as to affect normal business operations.

**Main changes in related party transactions of the Company and its Group since the latest Annual or Half-Year Report approved, pursuant to Article 154-ter of the TUF**

Trade receivables and other assets from other related parties refer mainly to:

- sale of daily newspapers, books and magazines;
- sale of computer-based products by subscription;
- sale of advertising space.

Revenue refers mainly to the sale of advertising space in proprietary titles, subscriptions to the Daily and charges for services to Business School24 S.p.A..

The cost item relating to other related parties refers mainly to a sponsorship and visibility agreement with Confindustria Servizi S.p.A. and a Senior Advisor agreement of the Professional area.

On 12 March 2020, the Company's Chief Executive Officer extended the qualification of Key Management Personnel to Eraldo Minella - General Manager Professional Area, and to Romeo Marrocchio - Central Director Personnel and Operations. At the date of this Report, the following executives are identified as Key Management Personnel of the Company: Federico Silvestri - General Manager System 24 and Business Unit Director Radio 24; Paolo Fietta - General Manager Corporate & CFO; Karen Nahum - Deputy General Manager Publishing & Digital Area; Eraldo Minella - General Manager Professional Area and Romeo Marrocchio - Central Director Personnel and Operations.

In accordance with the Company's "Regulation on Related Party Transactions" (the "**RPT Regulation**"), and the Regulation on Related Party Transactions approved by CONSOB resolution no. 17221/2011, the Company periodically updates the Register of "Related Parties" of the Company. In line with the RPT Regulation and the CONSOB Regulation, on 31 March 2020 the Company identified its direct and indirect Related Parties by means of appropriate statement forms addressed to the "Related Parties" referred to in Annex 1 of the CONSOB Regulation to which the RPT Regulation refers entirely. Specifically, starting from this Interim Management Statement, the parties previously identified in the table appearing in the 2019 Consolidated Financial Statements "Transactions with related parties" under the items: "Associates" - Business School24 S.p.A. and "Other Executives" have not been identified as related parties and therefore no longer shown.

No further changes were reported in existing contractual relations from the situation relating to the last approved Annual Report.

**Related parties of Il Sole 24 ORE S.p.A.**

Trade receivables and other assets from other related parties refer mainly to:

- sale of daily newspapers, books and magazines;
- sale of computer-based products by subscription;
- sale of advertising space in Group titles;
- tax consolidation and VAT receivables.

Trade and other payables refer mainly to:

- payables to the subsidiary Il Sole 24 ORE UK Ltd., for the commercial intermediation activity relating to the sale of advertising space in the UK;
- trade payables for services from Il Sole 24 ORE U.S.A Inc.;
- payables for the provision of services and editorial work;
- payables for the purchase of information;
- tax and VAT consolidation payables.

Financial payables refer to current accounts with the subsidiaries Ticket 24 ORE S.r.l., 24 ORE Cultura S.r.l. and to financial payables to Il Sole 24 ORE Eventi S.r.l..

Revenue and operating income relate mainly to:

- sale of daily newspapers, books and magazines;
- sale of computer-based products by subscription;
- sale of advertising space in Group titles;
- charging of centralized services to Group companies;

Costs refer mainly to:

- a contractual agreement with the subsidiary Il Sole 24 ORE UK Ltd., for the commercial intermediation activity relating to the sale of advertising space in the UK;
- a contractual agreement with the subsidiary Il Sole 24 ORE U.S.A. Inc. for services rendered;
- a contractual agreement with the subsidiary Eventi S.r.l. for the commercial brokerage activity relating to the sale of advertising space and for its share of the sponsorship of events.

The cost item relating to other related parties refers mainly to a sponsorship and visibility agreement with Confindustria Servizi S.p.A..

On 29 February 2020, the merger by incorporation of Ticket 24 ORE S.r.l. into the parent company 24 ORE Cultura S.r.l. was completed.

On 12 March 2020, the Company's Chief Executive Officer extended the qualification of Key Management Personnel to Eraldo Minella - General Manager Professional Area, and to Romeo Marrocchio - Central Director Personnel and Operations. At the date of this Report, the following executives are identified as Key Management Personnel of the Company: Federico Silvestri - General Manager System 24 and Business Unit Director Radio 24; Paolo Fietta - General Manager Corporate & CFO; Karen Nahum - Deputy General Manager Publishing & Digital Area; Eraldo Minella - General Manager Professional Area and Romeo Marrocchio - Central Director Personnel and Operations.

In accordance with the Company's "Regulation on Related Party Transactions" (the "**RPT Regulation**"), and the Regulation on Related Party Transactions approved by CONSOB resolution no. 17221/2011, the Company periodically updates the Register of "Related Parties" of the Company. In line with the RPT Regulation and the CONSOB Regulation, on 31 March 2020 the Company identified its direct and indirect Related Parties by means of appropriate statement forms addressed to the "Related Parties" referred to in Annex 1 of the CONSOB Regulation to which the RPT Regulation refers entirely. Specifically, starting from this Interim Management Statement, the parties previously identified in the table appearing in the 2019 Consolidated Financial Statements "Transactions with related parties" under the items: "Associates" - Business School24 S.p.A. and "Other Executives" have not been identified as related parties and therefore no longer shown.

No further changes were reported in existing contractual relations from the situation relating to the last approved Annual Report.

**Failure to meet covenants, negative pledges and any other clause of the Group's debt involving limits in the use of financial resources, with the disclosure to date of the degree of compliance with such clauses**

On 30 November 2017, the Company finalized the execution of the recapitalization and capital strengthening transaction and concluded agreements with lenders on the granting of new revolving cash credit facilities for a total of € 30.0 million, falling due on 31 December 2020, to support any future financial needs of the Company. The new revolving cash credit facilities do not require any collateral or compulsory security, but financial covenants recognized at consolidated level and without including any adjustments for non-recurring items. The covenants are structured as follows:

<b>FINANCIAL COVENANTS</b>						
€ millions	31 Dec 2017	30 June 2018	31 Dec 2018	30 June 2019	31 Dec 2019	30 June -2020
EBITDA (*) higher than	n.r.	2.0	5.0	8.0	12.5	13.0
Equity higher than	27.0	25.0	23.0	24.0	26.0	30.0
Debt/EBITDA lower than	n.r.	n.r.	1.75	n.r.	1.50	n.r.

(\*) amounts to be calculated on a rolling 12-month basis

Failure to satisfy even one of the covenants involves the right of early withdrawal from the loan by the banks. However, changes to the loan agreement may be requested from the lenders, or the lenders may waive their right to early withdrawal if failure to meet a covenant should occur.

On 13 May 2019, the lenders confirmed that, as from 2019, the covenants will be reviewed by adjusting the figures taken from the Group's half-year and annual reports by the effects of the introduction of the new IFRS 16 based on the elements elaborated in the financial reports.

With regard to the last contractual survey performed on 31 December 2019, although no use was made of the above credit facility, the aforesaid covenants were met:

- EBITDA (rolling 12 months): € 12.6 million (covenant: € 12.5 million);
- equity: € 34.9 million (covenant: € 26.0 million);
- NFP/EBITDA: 1.12 (covenant: 1.50).

On 12 March 2020, the lenders announced the change in the value of the financial covenant EBITDA rolling 12 months, used in the recognition of the covenant at 30 June 2020 (date of the last interim recognition before expiry of the loan), from € 16.5 million to € 13.0 million. The approved 2020 Budget meets the new EBITDA covenant. On the same date, the lenders also announced the increase in financial debt allowed overall at consolidated level, from € 10.0 million to € 20.0 million.

Additionally, on 13 November 2017, the Company and Monterosa SPV concluded an agreement to extend the maturity of the transaction involving the securitization of trade receivables in place at that time until December 2020; it should be noted, however, that under the agreement, both parties may conclude operations at the end of each calendar quarter.

The maximum total financeable amount is € 50.0 million; at 31 March 2020, the credit facility for the securitization of trade receivables had been drawn down, with recourse, for the amount of € 17.1 million (total amount of the facility € 20.0 million), and without recourse, for € 16.3 million.

The securitization agreement does not contain financial covenants, but rather impediments to the purchase of the Company's portfolios of receivables which, in the event of failure to remedy, may also result in termination of the agreement. At 31 March 2020, no such impediments to the purchase had arisen, and/or significant events as to determine the termination of the agreement.

On 8 May 2020, the Company:

- submitted a formal request to the lenders to suspend the recognition of the covenants at 30 June 2020 (covenant holiday);
- sent a request to obtain a medium/long-term loan from a pool of banks, backed by a SACE guarantee pursuant to Decree Law no. 23 of 8 April 2020, so-called "Liquidity Decree";

- submitted a formal request to extend the securitization line for trade receivables beyond the maturity date currently scheduled at 31 December 2020.

### **State of implementation of the Business Plan, and disclosure of deviations of actual data from forecasts**

On 12 March 2020, the Board of Directors of the Company approved the 2020-2023 Business Plan, which confirms the strategic course of the previous 2019-2022 Plan approved on 15 May 2019, with updates and developments thereto.

In keeping with the previous Plan, the following strategic targets were set:

- strengthen the value of content in the integrated 24 ORE system by focusing on products and services with high margins and a high rate of innovation in both the print and digital range offered;
- accelerate multi-channel sales performance by boosting upselling and enhancing the customer base;
- expand territorial coverage in order to increase the involvement of users of products and services of the 24 ORE system and enhance the relevance of the brand;
- transform operations as a whole in order to improve the efficiency of editing, production and distribution costs.

The forward-looking data appearing in the 2020-2023 Plan represent strategic targets set in the frame of corporate planning.

The preparation of the 2020-2023 Plan was based, among other things, on (i) general, hypothetical, as well as discretionary assumptions, and on (ii) a series of estimates and assumptions regarding the implementation, by the directors, of specific actions to be undertaken in the time frame covered by the Plan, or regarding future events that may be only partly influenced by the directors, or events which may not occur or be subject to change over the period of the Plan.

Specifically, the 2020-2023 Plan does not take into consideration the impacts of the Covid-19-related emergency and the extraordinary containment measures subsequently taken by the authorities involved, which led to a sudden deterioration of the general conditions of the global economy in March, the extent of which could not be predicted at the time of its preparation in terms of both duration and impact on business.

The spread of the pandemic has significantly affected the performance of advertising sales and led to the suspension of planned events and the slowdown of special initiatives created specifically for customers. Despite the growth in advertising sales in the first two months of 2020, a number of media centres have reviewed their forecasts for 2020, which take account of the repercussions of the spread of Covid-19, estimating a drop of between -17.5% and -20% (print approximately -30%; radio over -20% and digital approximately -15%), mindful of the fact that the current forecasts may be further reviewed. Radio, too, is bearing the brunt of the current emergency.

The Culture area has been greatly impacted by the current health emergency; in accordance with the order of 23 February 2020 of the Ministry of Health and the President of the Lombardy Region, and the ensuing legal measures, the MUDEC has been closed until further notice, with the resulting suspension and postponement of scheduled exhibitions.

The Professional area is equally affected by the closure of distributors and bookstores, and of professional practices, with a resulting negative impact both on sales of specialist publishing and of databases and software.

On the circulation front, ADS figures of the main national newspapers show for January-March 2020 a drop in total circulation of print+digital copies of -8.0% versus the same period of 2019, with a drop in circulation of the print version of -10.4% and an increase in digital circulation of +1.1% (*ADS January-March 2020*). Circulation revenue from the Daily outperformed forecasts, linked to newsstand sales and combined marketing initiatives, partly offset by lower direct sales from the suspension of supplies to trains and airlines and lower sales of add-ons related chiefly to the shuttering of the bookstore channel.

The trend of the relevant markets affected the overall performance of the Group, which closed first quarter 2020 with consolidated revenue and EBITDA lower than expected, only partly offset by the reduction in direct and operating costs.

In light of the negative effect on the Group's consolidated revenue of the restrictions and lockdown measures adopted by the government authorities due to the Covid-19 emergency, the Company has swiftly reacted by implementing a series of actions to mitigate the operating and financial impacts.

Specifically, the Company has identified and adopted the following cost containment measures:

- adoption of shock absorbers and other forms of public support to protect workers issued on an extraordinary basis and voluntary salary reduction by Management;
- extended use of smart working and suspension of all costs for travel and expense reports;
- strong reduction in editorial, marketing and commercial costs;
- suspension of all discretionary costs and renegotiation of several service contracts.

Additionally, in order to ensure the net financial position, the Company has also:

- temporarily suspended all non-essential investments;
- submitted a formal request to the lenders to suspend the recognition of the covenants at 30 June 2020 (covenant holiday);
- sent a request to obtain a medium/long-term loan from a pool of banks, backed by a SACE guarantee pursuant to Decree Law no. 23 of 8 April 2020, so-called "Liquidity Decree";

Lastly, the Company has submitted a formal request to extend the securitization line for trade receivables beyond the maturity date currently scheduled at 31 December 2020.

The results of these actions, despite their launch in March, will contribute to performance starting from the second quarter, which, however, is expected to bear the brunt of the negative effects of Covid-19.

Given the current uncertainty over the duration and intensity of the Covid-19 health and socio-economic emergency, and over the timing of a possible return to normalcy, the Company believes that it is not possible, as things stand, to estimate the impact of the epidemic in 2020 and possibly the following years, and therefore reserves the right to provide updates as soon as visibility conditions allow more accurate estimates of the impact of the Covid-19 emergency.
